Jeff,

If getting f2f date is a problem, schedule another conference call with the County and Tribe and layout the letter plan. If the County no shows then we know their stance. Most important is that the Tribe should know that the GNL letters will be coming.

OK, I just sent the County and Tribal contacts another email asking again if they're available to meet on February 26. Is it reasonable to wait another day or two for a response from the Tribe and County and if I don't hear from them, I can ratchet it up by letting them know we want to schedule the PRP meeting? Otherwise, we could just send the letters with a generic "we will meet sometime in March" reference.

Jeff, I just talked with Cliff and he feels strongly that we need to get the letters out; particularly now that the meeting with the Tribe and County is later this month. Do you want to discuss with Calvin and come to a consensus and let Cliff and I know. Let's consider picking a date now and see if we can get a space.
